

Bamford

Top for '26 - Bamford is the UK's most marketable wheat with proven yields and end market flexibility.

105

UK Treated Yield (% controls)
2026 AHDB RL

78.5

Specific weight (kg/hl)
2026 AHDB RL

256

Hagberg Falling Number
2026 AHDB RL

Key Characteristics

- Bamford is high yielding across all regions, soil types and drilling dates
- High income potential through multiple end market premiums
- Erect growth habit over winter and particularly vigorous in the spring
- Exceptional grain quality with high HFN and good specific weight

Recommended for

- Biscuit milling
- Feed wheat
- Distilling
- UKS export
